Easy~Fit

Type 2 Easy~Fit Brackets

These flat-packed, self assembly brackets provide a professional finish to the installation of wall mounted outdoor condensing units and air source heat pumps. The Type 2 brackets have a crossbar allowing the uprights to be spaced exactly as required, and include wall spacers to help level the unit on uneven walls. All components receive a powder coating, with a scratch resistant, textured finish in a colour (RAL 7032) to match most brands of condensing units and domestic air source heat pumps.

Features

- Integral spirit level for easier, correct installation
- Uprights mount anywhere on the crossbar which enables the arm span to be adjusted easily
- Adjustable wall spacers to level the arms
- Safe working load up to 250kg
- Suitable to match most brands of condensing units and domestic air source heat pumps
- Extra long arms (up to 660mm available for larger condensing units)
- Textured finish in (RAL 7032)

Sea salts are very corrosive and affect both ferrous and non-ferrous metals. Coastal installations are particularly at risk as they are frequently exposed to sea salt solutions followed by dry periods, where this wet/dry cycle produces a very corrosive environment. We strongly recommend that in such locations only our stainless steel brackets are installed.
